D) The impact of Gender Stereotypes on Teenagers' Career Choices.

First of all, I'm girl. I'm 16 years old and I hate many stereotypes about girls and boys. We do not choose who we born. Boy or Girl?

One of the stereotypes „Girls are weaker than boys“. Yes, some of girls are really weaker, smaller than boys. But not all of them. For example, my bestie. She looks small. But she is stronger than my friend haha.

Second stereotype „Boys or men should do not cry“ I'm sorry, but what? Like they are robots? Or what? They are too human, they are too have emotions, feelings. Like we girls. Maybe, they tired of their life or tired in work. It's not our business. In my opinion, this stereotype one of the embarrassing stereotypes.

Third stereotype „In Government should be only men“. We ~~are~~ women are too have choice to be someone in government. Who knows, maybe random women is smarter than our president.
